

## 3906ICT: Assignment Marking Criteria

Weighting: 50% (Individual)

Description	Excellent	Very Good	Good	Satisfactory	Unsatisfactory	Not Attempted
Task 1 – Question 1	The correct answer is provided. You have been able to provide overwhelming evidence that you have presented the correct conclusions. You have provided a detailed description of the digital forensics process used to analyze the digital artifact. You have shown an excellent understanding of digital forensics techniques.	The correct answer is provided. You have been able to provide good evidence that you have presented the correct conclusions. You have provided a good description of the digital forensics process used to analyze the digital artifact. You have shown a good understanding of digital forensics techniques.	The correct or very close to correct answer is provided. You have been able to provide reasonable evidence that you have presented the correct conclusions. You have provided a reasonable description of the digital forensics process used to analyze the digital artifact. You have shown a reasonable understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide acceptable evidence that you have presented the correct conclusions. You have provided an acceptable description of the digital forensics process used to analyze the digital artifact. You have shown an acceptable understanding of digital forensics techniques.	An incorrect answer is provided. You have been able to provide average evidence that you have presented the correct conclusions. You have provided an average description of the digital forensics process used to analyze the digital artifact. You have shown an average understanding of digital forensics techniques.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.
Marks	5	4	3	2	1	0
Task 1 – Question 2	The correct answer is provided. You have been able to provide overwhelming evidence that you have presented the correct conclusions. You have provided a detailed description of the digital forensics process used to analyze the digital artifact. You have shown an excellent understanding of digital forensics techniques.	The correct answer is provided. You have been able to provide good evidence that you have presented the correct conclusions. You have provided a good description of the digital forensics process used to analyze the digital artifact. You have shown a good understanding of digital forensics techniques.	The correct or very close to correct answer is provided. You have been able to provide reasonable evidence that you have presented the correct conclusions. You have provided a reasonable description of the digital forensics process used to analyze the digital artifact. You have shown a reasonable understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide acceptable evidence that you have presented the correct conclusions. You have provided an acceptable description of the digital forensics process used to analyze the digital artifact. You have shown an acceptable understanding of digital forensics techniques.	An incorrect answer is provided. You have been able to provide average evidence that you have presented the correct conclusions. You have provided an average description of the digital forensics process used to analyze the digital artifact. You have shown an average understanding of digital forensics techniques.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.

Description	Excellent	Very Good	Good	Satisfactory	Unsatisfactory	Not Attempted
Task 1 – Question 3	The correct answer is provided. You have been able to provide overwhelming evidence that you have presented the correct conclusions. You have provided a detailed description of the digital forensics process used to analyze the digital artifact. You have shown an excellent understanding of digital forensics techniques.	The correct answer is provided. You have been able to provide good evidence that you have presented the correct conclusions. You have provided a good description of the digital forensics process used to analyze the digital artifact. You have shown a good understanding of digital forensics techniques.	The correct or very close to correct answer is provided. You have been able to provide reasonable evidence that you have presented the correct conclusions. You have provided a reasonable description of the digital forensics process used to analyze the digital artifact. You have shown a reasonable understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide acceptable evidence that you have presented the correct conclusions. You have provided an acceptable description of the digital forensics process used to analyze the digital artifact. You have shown an acceptable understanding of digital forensics techniques.	An incorrect answer is provided. You have been able to provide average evidence that you have presented the correct conclusions. You have provided an average description of the digital forensics process used to analyze the digital artifact. You have shown an average understanding of digital forensics techniques.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.
Marks	5	4	3	2	1	0
Task 1 – Question 4	The correct answer is provided. You have been able to provide overwhelming evidence that you have presented the correct conclusions. You have provided a detailed description of the digital forensics process used to analyze the digital artifact. You have shown an excellent understanding of digital forensics techniques.	The correct answer is provided. You have been able to provide good evidence that you have presented the correct conclusions. You have provided a good description of the digital forensics process used to analyze the digital artifact. You have shown a good understanding of digital forensics techniques.	The correct or very close to correct answer is provided. You have been able to provide reasonable evidence that you have presented the correct conclusions. You have provided a reasonable description of the digital forensics process used to analyze the digital artifact. You have shown a reasonable understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide acceptable evidence that you have presented the correct conclusions. You have provided an acceptable description of the digital forensics process used to analyze the digital artifact. You have shown an acceptable understanding of digital forensics techniques.	An incorrect answer is provided. You have been able to provide average evidence that you have presented the correct conclusions. You have provided an average description of the digital forensics process used to analyze the digital artifact. You have shown an average understanding of digital forensics techniques.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.

Task 1 – Question 5	The correct answer is provided. You have been able to provide overwhelming evidence that you have presented the correct conclusions. You have provided a detailed description of the digital forensics process used to analyze the digital artifact. You have shown an excellent understanding of digital forensics techniques.	The correct answer is provided. You have been able to provide good evidence that you have presented the correct conclusions. You have provided a good description of the digital forensics process used to analyze the digital artifact. You have shown a good understanding of digital forensics techniques.	The correct or very close to correct answer is provided. You have been able to provide reasonable evidence that you have presented the correct conclusions. You have provided a reasonable description of the digital forensics process used to analyze the digital artifact. You have shown a reasonable understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide acceptable evidence that you have presented the correct conclusions. You have provided an acceptable description of the digital forensics process used to analyze the digital artifact. You have shown an acceptable understanding of digital forensics techniques.	An incorrect answer is provided. You have been able to provide average evidence that you have presented the correct conclusions. You have provided an average description of the digital forensics process used to analyze the digital artifact. You have shown an average understanding of digital forensics techniques.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.
Marks	5	4	3	2	1	0
Task 1 – Question 6	The correct answer is provided. You have been able to provide overwhelming evidence that you have presented the correct conclusions. You have provided a detailed description of the digital forensics process used to analyze the digital artifact. You have shown an excellent understanding of digital forensics techniques.	The correct answer is provided. You have been able to provide good evidence that you have presented the correct conclusions. You have provided a good description of the digital forensics process used to analyze the digital artifact. You have shown a good understanding of digital forensics techniques.	The correct or very close to correct answer is provided. You have been able to provide reasonable evidence that you have presented the correct conclusions. You have provided a reasonable description of the digital forensics process used to analyze the digital artifact. You have shown a reasonable understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide acceptable evidence that you have presented the correct conclusions. You have provided an acceptable description of the digital forensics process used to analyze the digital artifact. You have shown an acceptable understanding of digital forensics techniques.	An incorrect answer is provided. You have been able to provide average evidence that you have presented the correct conclusions. You have provided an average description of the digital forensics process used to analyze the digital artifact. You have shown an average understanding of digital forensics techniques.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.

Task 1 – Question 7	The correct answer is provided. You have been able to provide overwhelming evidence that you have presented the correct conclusions. You have provided a detailed description of the digital forensics process used to analyze the digital artifact. You have shown an excellent understanding of digital forensics techniques.	The correct answer is provided. You have been able to provide good evidence that you have presented the correct conclusions. You have provided a good description of the digital forensics process used to analyze the digital artifact. You have shown a good understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide reasonable evidence that you have presented the correct conclusions. You have provided a reasonable description of the digital forensics process used to analyze the digital artifact. You have shown a reasonable understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide acceptable evidence that you have presented the correct conclusions. You have provided an acceptable description of the digital forensics process used to analyze the digital artifact. You have shown an acceptable understanding of digital forensics techniques.	An incorrect answer is provided. You have been able to provide average evidence that you have presented the correct conclusions. You have provided an average description of the digital forensics process used to analyze the digital artifact. You have shown an average understanding of digital forensics techniques.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.
Marks	5	4	3	2	1	0
Task 1 – Question 8	The correct answer is provided. You have been able to provide overwhelming evidence that you have presented the correct conclusions. You have provided a detailed description of the digital forensics process used to analyze the digital artifact. You have shown an excellent understanding of digital forensics techniques.	The correct answer is provided. You have been able to provide good evidence that you have presented the correct conclusions. You have provided a good description of the digital forensics process used to analyze the digital artifact. You have shown a good understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide reasonable evidence that you have presented the correct conclusions. You have provided a reasonable description of the digital forensics process used to analyze the digital artifact. You have shown a reasonable understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide acceptable evidence that you have presented the correct conclusions. You have provided an acceptable description of the digital forensics process used to analyze the digital artifact. You have shown an acceptable understanding of digital forensics techniques.	An incorrect answer is provided. You have been able to provide average evidence that you have presented the correct conclusions. You have provided an average description of the digital forensics process used to analyze the digital artifact. You have shown an average understanding of digital forensics techniques.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.

Task 1 – Question 9	The correct answer is provided. You have been able to provide overwhelming evidence that you have presented the correct conclusions. You have provided a detailed description of the digital forensics process used to analyze the digital artifact. You have shown an excellent understanding of digital forensics techniques.	The correct answer is provided. You have been able to provide good evidence that you have presented the correct conclusions. You have provided a good description of the digital forensics process used to analyze the digital artifact. You have shown a good understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide reasonable evidence that you have presented the correct conclusions. You have provided a reasonable description of the digital forensics process used to analyze the digital artifact. You have shown a reasonable understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide acceptable evidence that you have presented the correct conclusions. You have provided an acceptable description of the digital forensics process used to analyze the digital artifact. You have shown an acceptable understanding of digital forensics techniques.	An incorrect answer is provided. You have been able to provide average evidence that you have presented the correct conclusions. You have provided an average description of the digital forensics process used to analyze the digital artifact. You have shown an average understanding of digital forensics techniques.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.
Marks	5	4	3	2	1	0
Task 1 – Question 10	The correct answer is provided. You have been able to provide overwhelming evidence that you have presented the correct conclusions. You have provided a detailed description of the digital forensics process used to analyze the digital artifact. You have shown an excellent understanding of digital forensics techniques.	The correct answer is provided. You have been able to provide good evidence that you have presented the correct conclusions. You have provided a good description of the digital forensics process used to analyze the digital artifact. You have shown a good understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide reasonable evidence that you have presented the correct conclusions. You have provided a reasonable description of the digital forensics process used to analyze the digital artifact. You have shown a reasonable understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide acceptable evidence that you have presented the correct conclusions. You have provided an acceptable description of the digital forensics process used to analyze the digital artifact. You have shown an acceptable understanding of digital forensics techniques.	An incorrect answer is provided. You have been able to provide average evidence that you have presented the correct conclusions. You have provided an average description of the digital forensics process used to analyze the digital artifact. You have shown an average understanding of digital forensics techniques.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.

Task 1 – Question 15	The correct answer is provided. You have been able to provide overwhelming evidence that you have presented the correct conclusions. You have provided a detailed description of the digital forensics process used to analyze the digital artifact. You have shown an excellent understanding of digital forensics techniques.	The correct answer is provided. You have been able to provide good evidence that you have presented the correct conclusions. You have provided a good description of the digital forensics process used to analyze the digital artifact. You have shown a good understanding of digital forensics techniques.	The correct or very close to correct answer is provided. You have been able to provide reasonable evidence that you have presented the correct conclusions. You have provided a reasonable description of the digital forensics process used to analyze the digital artifact. You have shown a reasonable understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide acceptable evidence that you have presented the correct conclusions. You have provided an acceptable description of the digital forensics process used to analyze the digital artifact. You have shown an acceptable understanding of digital forensics techniques.	An incorrect answer is provided. You have been able to provide average evidence that you have presented the correct conclusions. You have provided an average description of the digital forensics process used to analyze the digital artifact. You have shown an average understanding of digital forensics techniques.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.
Marks	5	4	3	2	1	0
Task 1 – Question 16	The correct answer is provided. You have been able to provide overwhelming evidence that you have presented the correct conclusions. You have provided a detailed description of the digital forensics process used to analyze the digital artifact. You have shown an excellent understanding of digital forensics techniques.	The correct answer is provided. You have been able to provide good evidence that you have presented the correct conclusions. You have provided a good description of the digital forensics process used to analyze the digital artifact. You have shown a good understanding of digital forensics techniques.	The correct or very close to correct answer is provided. You have been able to provide reasonable evidence that you have presented the correct conclusions. You have provided a reasonable description of the digital forensics process used to analyze the digital artifact. You have shown a reasonable understanding of digital forensics techniques.	The correct or close to correct answer is provided. You have been able to provide acceptable evidence that you have presented the correct conclusions. You have provided an acceptable description of the digital forensics process used to analyze the digital artifact. You have shown an acceptable understanding of digital forensics techniques.	An incorrect answer is provided. You have been able to provide average evidence that you have presented the correct conclusions. You have provided an average description of the digital forensics process used to analyze the digital artifact. You have shown an average understanding of digital forensics techniques.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.

Description	Excellent	Very Good	Good	Satisfactory	Unsatisfactory	Not Attempted
Task 2 – Introduction	Introduction clearly expresses the purpose, objective and scope of the report. The case is clearly defined, and key issues are identified. Ideas are developed in clear, concise and ordered stages. Well focused with the appropriate audience in mind. Clearly identifies relevant contexts. Effectively establishes a relationship between the theory and practice. Highly detailed executive provided.	Introduction outlines purpose, objective and scope of the report. Majority of key issues of the case are identified. Central ideas are apparent. Generally, acknowledges and meets the needs of the audience. Considers the potential contexts with clear relationship between theory and practice	Introduction provides general indication of the scope of the report. Discussion is focused on the case however some key issues may be missing or under-represented. Central ideas are apparent but may be generalized or too trivial. Acknowledges the audience but may only partially meets their needs. Recognizes the significance of relating theory to practice but attempts to do so may not be successful.	Introduction gives some indication of the scope of the report but requires further development. Discussion generally aimed at the case; however, grasp of the case may be inadequate. Central ideas are very generalized without any clear focus and may be confused and/or unsupported. Unsatisfactory analysis of the audience. Acknowledges the need to consider the practical context, but no examples provided, or examples are inappropriate.	Introduction is not clear. Lacks evidence of knowledge or understanding relevant to the case. No consideration of the audience. Context not recognized as relevant. No practical examples provided from industry context. No abstract or abstract of limited coverage provided.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.
Marks	5	4	3	2	1	0
Task 2 – Evidence Acquisition	Evidence acquisition process has been well documented, demonstrating a comprehensive understanding of diverse dimensions of the issues. Excellent critical analysis of evidence acquisition. Sources of evidence are comprehensively described. Well focused with the appropriate audience in mind.	Evidence acquisition process has very good documentation, demonstrating a strong understanding of diverse dimensions of the issues. High level critical analysis of evidence acquisition. Sources of evidence are comprehensively described. Generally, acknowledges and meets the needs of the audience.	Evidence acquisition process has good documentation, demonstrating a sound understanding of the issues. Good critical analysis of evidence acquisition. Sources of evidence are well described. Acknowledges the audience but may only partially meets their needs.	Evidence acquisition process has reasonable documentation, demonstrating a general understanding of the issues. Reasonable analysis of evidence acquisition. Sources of evidence are reasonably well described. Unsatisfactory analysis of the audience.	Evidence acquisition process has some documentation, demonstrating a small understanding of the issues. Some analysis of evidence acquisition. Sources of evidence are described. No consideration of the audience.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.

Description	Excellent	Very Good	Good	Satisfactory	Unsatisfactory	Not Attempted
Task 2 – Forensic Analysis	Forensic Analysis process has been well documented, demonstrating a comprehensive understanding of diverse dimensions of the issues. Excellent critical analysis of the Forensic Analysis process. The Forensic Analysis process is comprehensively described. Well focused with the appropriate audience in mind.	The Forensic Analysis process has very good documentation, demonstrating a strong understanding of diverse dimensions of the issues. High level critical analysis of the Forensic Analysis process. The Forensic Analysis process is comprehensively described. Generally, acknowledges and meets the needs of the audience.	The Forensic Analysis process has good documentation, demonstrating a sound understanding of the issues. Good critical analysis of the Forensic Analysis process. The Forensic Analysis process is well described. Acknowledges the audience but may only partially meets their needs.	The Forensic Analysis process has reasonable documentation, demonstrating a general understanding of the issues. Reasonable analysis of the Forensic Analysis process. The Forensic Analysis process is reasonably well described. Unsatisfactory analysis of the audience.	The Forensic Analysis process has some documentation, demonstrating a small understanding of the issues. Some analysis of the Forensic Analysis process. The Forensic Analysis process is described. No consideration of the audience.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.
Marks	15	12	9	6	3	0
Task 2 – Forensic Tools Description and Opinion	Strong evidence of independent and original questioning, analysis. Independently takes and understands multiple perspectives, presenting all sides of the argument. Effective ability to synthesize the information and provides clear and relevant links between evidence and the examination process. Discussion progresses logically and convincingly to conclusions. All key limitations are identified and critically discussed	Evidence of independent questioning and analysis. Independently takes and understands multiple perspectives, presenting multiple viewpoints. Synthesizes the information, providing clear links between the evidence and the examination process. Discussion leads reader to the conclusions. A range of limitation are identified and discussed.	Some evidence of independent questioning and analysis. Recognizes alternative perspectives. Attempt made to synthesize the information with limited success in drawing links between the evidence and the examination process. Argument is generally well developed with occasional disproportionate or inappropriate emphasis. Some limitations are identified but a full critical discussion not provided.	A limited range of issues introduced, with some attempt to consider them critically. Limited attempt to synthesize information or synthesis does not successfully link the evidence and the examination process. Limited ability to present finding and see alternative perspectives. Some limitations are identified but no critical discussion provided.	Lacks critical thought or analysis. Unsubstantiated, anecdotal, or invalid findings. No or inappropriate limitations are discussed.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.
Marks	15	12	9	6	3	0

Description	Excellent	Very Good	Good	Satisfactory	Unsatisfactory	Not Attempted
Task 2 – Conclusions	Analytical and clear conclusions well-grounded in the digital evidence, showing the development of hypothesis and digital forensic concepts and linked to the case. Valid and sound recommendations are presented with confidence.	Logical conclusions, grounded in the digital evidence, considering digital forensics concepts, and linked to the case.  Valid and sound recommendations are presented.	Mechanical conclusions drawn from the digital evidence: clear, linked to the case, but may be general. Recommendations made are generally sound and valid but lack clear description and link to evidence.	Attempts to provide conclusions however they may need further development and/or may not be appropriate and/or may not be linked to the case. Limited attempt to recommendations.	Little or no conclusions at all. Little or no recommendations at all.	No evidence that the task was attempted. Plagiarism or academic dishonesty detected.
